

- All components fully enclosed in a durable epoxy-coated steel cabinet, available in a range of finishes
- Designed for easy access to provide maximum serviceability
- Wheel mounted for mobility; lockable for stability
- Fully soundproofed for ultra-quiet operation
- Fully automatic operation with 'water on demand'
- Optimised for membrane and treated water cleanliness
- Options for on-board sanitisation and UV disinfection
- Simple, straightforward installation with single phase electrics
- Automatic cut off/leak detector

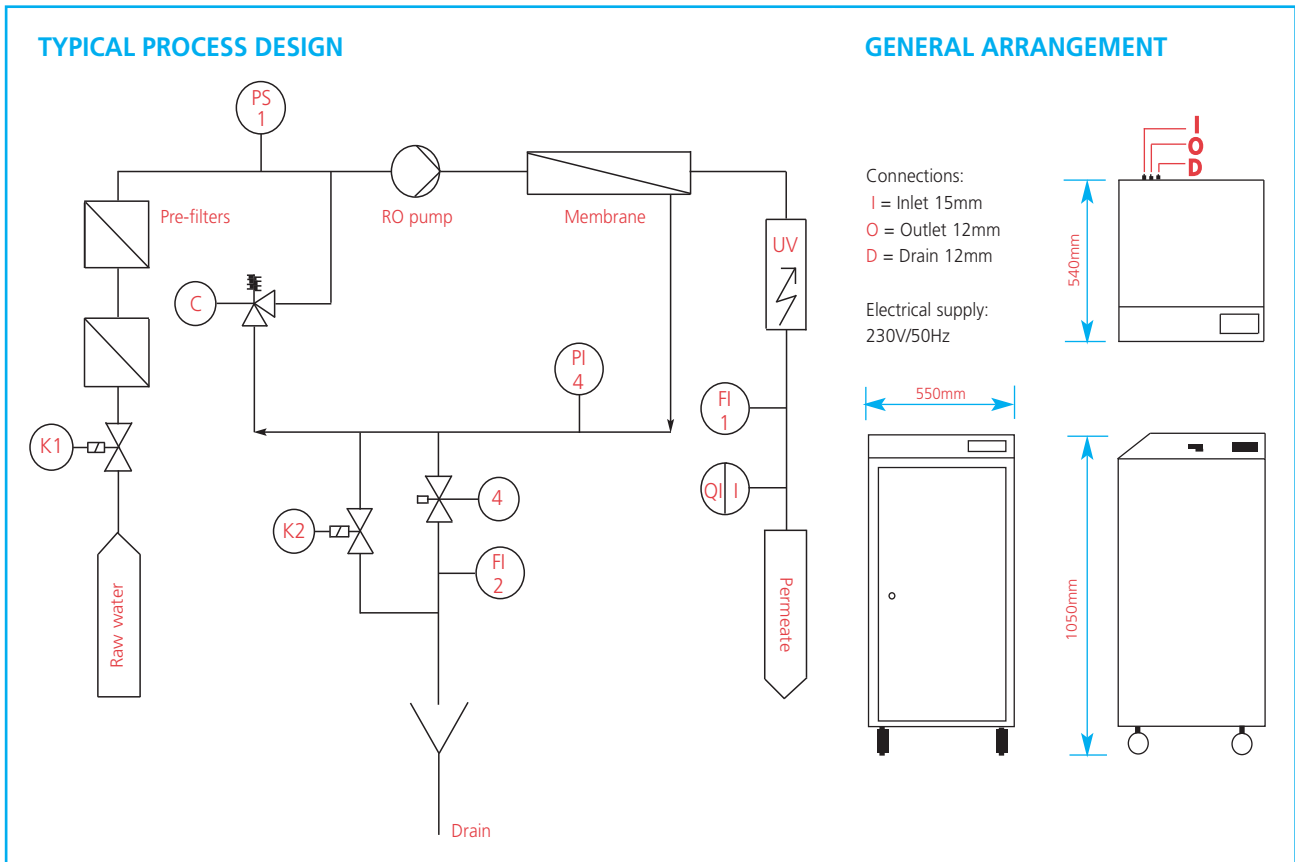

Reverse Osmosis Systems TK Series

The TK series system is a unique modern range of quality engineered reverse osmosis units designed for automatic operation. Features include: 'water on demand' fully automatic operation, easy mobility, simple straightforward installation, automatic cut off with leak detection and ultra quiet operation.

PRODUCT RANGE

Model	Permeate	Inlet	Recovery	Inlet	Water	Ion	Working	Corrections:	Power	Dimensions
